

Welcome to Luxuria – the *ultimate* in luxury coach travel

We are proud to introduce our new and innovative *Luxuria* coach.

In 2003 we introduced our Silver Service coach which set the standard for added comfort and style whilst travelling across Europe. Many of you have been asking “what next?” ... the answer is Luxuria...

From the outside, Luxuria looks elegant and stylish. Step on board and the luxury continues. Passenger comfort was top of our list when we came up with the idea for Luxuria, and this is clear from the moment you sink into the soft, wide seats.

Luxuria is an elegant and stylish coach, offering Leger customers an unrivalled level of luxury coach travel. Along with most of the top-class facilities found on Silver Service, *Luxuria* has even more superb features to ensure a wonderful travel ‘experience’.

Superb levels of comfort as you travel

The legroom onboard really is as generous as we could make it, the adjustable headrest will ensure you’re as comfortable as possible, and the design of this particular vehicle means you’ll benefit from a lot more personal space, adding to the already extremely spacious interior. Along with climate control, on board servery, W.C., personal tables and porterage† at most hotels, *Luxuria* has even more to make your journey more comfortable...

Luxuria has only 31 seats in a single and double configuration, meaning wider seats and more space around you. There is deluxe armchair-style seating with retractable calf rests.

There’s also a selection of double and single seats, including four seats face-to-face with tables. On each row, there are just three seats rather than the usual four, meaning each armchair-style luxury seat is wider and has a lot more personal space around it, for a more comfortable journey.

And with up to 7 single seats available, these are ideal for single travellers and those who prefer their own personal space.

For the finest levels of enjoyment and convenience

Luxuria has an excellent climate control system, onboard personal service, a toilet and washroom - and personal flip down tables.**

Every seat* has its own fully-interactive touch-screen T.V. offering a wide choice of movies, TV programmes and music - so you are in total control of what you watch - and when. There are also plug sockets and USB points at each seat, so you can keep your devices fully charged. (see the panel on the right for more details).

Luxuria Customers also enjoy porterage† at most hotels.

A fully interactive entertainment system at your finger tips...

With a superb entertainment system built into the fully interactive, touch-screen TV's, you'll be able to enjoy a fantastic range of entertainment options as you travel. And, with an adjustable monitor angle of up to 60°, you'll always have a great view, regardless of the position of the seat in front of you.

Movies: Watch your favourite movies on your own personal monitor, in high picture quality. We offer a wide selection of movies to suit all tastes. You can totally relax in your armchair-style luxury seat and listen on your own personal headphones without disturbing others.

Music: How often do you find time to just sit back and listen to music? Well, your journey offers the perfect opportunity for you to relax and enjoy some 'me' time, listening to your preferred music from the broad selection on board.

Games: You can test your wit and skill, or stimulate your mind on an exciting game from our onboard collection. On some games, you can even play against your travelling companions.

Your Journey: You'll be able to follow the road using the picture from the front view camera. And, if you want to know where you are at any time, just switch to sat-nav – and one touch of your screen will show you your current position.
