Dear Mr Sample

**Give your Conservatory a sparkling new exterior clean...**

**...and we'll fully valet the interior, absolutely FREE!**

Is your conservatory looking a little tired?

Could it benefit from a real deep clean, both inside and out, to restore it to its former glory?

Well, if it could, then I have some very good news for you today. There has never been a better time. And here's why...

*Conservatory Clean & Care Service* is a superb new service offered by Thomas Sanderson, that will not only restore any conservatory to its full beauty, but will also protect it from future damage and unnecessary repairs in the future.

And right now, if you decide to treat your conservatory to an exterior clean, we'll also provide a full interior valet on the same day, absolutely FREE!

**We will professionally remove the dirt and grime and restore your conservatory to how it looked when it was first built**

Over time, all conservatories lose their sparkle. The build up of dirt and algae, plus discolouration to UPVC and corrosion to seals, can take their toll.

If you're like me, you will have tried to clean your conservatory from time to time, using a pressure washer. But, this never seems to do a complete job, does it? And, of course, domestic pressure washers can cause damage to seals and glazing units, too.

Our valet technician team are highly trained and meticulous. Using our bespoke cleaning and care treatments, our two-person team will professionally clean, polish and seal your conservatory in one day, restoring it to its full beauty.

Our full valet service also includes *Valet Guard*<sup>TM</sup>, which is a unique protective seal we apply to your glass after cleaning, which actively repels dirt and grime.
