[Voice Over]:

The Braai Buddy is the perfect pan for any braai and can be used on charcoal braai's, gas braai's, or even placed in the oven.

During a regular braai, food can constantly stick to the grate. The Braai Buddy changes all that .

This is because the Braai Buddy is made from cast aluminum and designed with a non-stick coating, so food sticking will become a thing of the past.

Your delicious food will come straight off the pan with ease and there's no oil required, whatever you are braaing.

And remember, the durable non-stick surface also makes the Braai Buddy extremely easy to clean. It just takes one single wipe - and the grease disappears.

Cleaning a regular braai is a chore that no one looks forward to. All that fat, sauce and oil just sticks to the grill and is always so difficult to get rid of.

Well, with the unbelievable Braai Buddy, you'll never have to spend loads of time cleaning again. The Braai Buddy can be completely cleaned in minutes, with warm soapy water or you can just pop it in the dishwasher.

You can say goodbye to sticking food, scraping the grill and all that grease and grime.

In Studio:

[Male Presenter]: Do you love to braai but hate the messy clean up? Well, I have some extremely good news for you today.

The Braai Buddy is totally non-stick, so those problems with sticking food and the unenviable job of cleaning the grill afterwards, are things of the past.

With the incredible Braai Buddy, you can braai meals you never thought were possible before.

There are so many reasons why the Braai Buddy is far superior and one of a kind. Here are just a few...

First of all, let me show you what comes in the box and just how quick and easy the Braai Buddy is to set up. As you can see, the Braai Buddy comes with a cast aluminum non-stick pan together with a detachable handle.

And, with one easy step, the handle clicks into the pan and you are ready to go.

It's so easy, so simple.

OK. Let's start putting the Braai Buddy to the test.
(Throws steak on regular braai and one on Braai Buddy)

Everybody loves thick and juicy restaurant quality steak right? Let's have a look at the regular

braai (*tries to flip steak, it sticks*). The steak keeps sticking to the grill.

Now you want non-stick (*flips steak*) now that's non-stick.

And for the first time, you can now cook prawns right beside your steak, for the best surf and turf you have EVER tasted.

You could never do this on a regular braai, because you would lose half your prawns. But with the Braai Buddy, the prawns stay in place.

No problems or complications - just delicious food.

Have a look at these buffalo wings. Wonderful, aren't they? But trying to do them on an open grate is so difficult. Just look what happens when I place them on a regular braai.

They just fall straight through into the coals, just like the prawns - and you lose most of your meal.

It's happened to all of us at some time and it's so annoying...

But as you can see, with the Braai Buddy, everything just stays in place and nothing falls through. You can braai any meal without losing one bite and here's the best part - you never lose that great braai flavor.

If you have ever tried to braai fish, you know how difficult it can be. It can flake and fall through the grate.

With the incredible Braai Buddy, you get perfect fish every time. No sticking, no problem, no mess. Just great fish...

Another great benefit of the Brai Buddy, is how easy it is to clean. Burnt meat or sauce can also be a nightmare when trying to clean up, but check this out.

With the Braai Buddy, the clean-up is just one simple wipe away. As shown here, the Braai Buddy makes everything so simple, so easy. It's the answer to all your sticky and messy braai problems.

[Voice Over]:

Have you ever tried to cook bacon, kebabs or vegetables on the braai? The food can constantly fall through the grill or roll off the braai.

It's a nightmare.

The Braai Buddy eradicates all of these problems - forever.

The Braai Buddy has been designed with much smaller holes between the grating than your average braai grill. This means your food cannot fall through the grating.

The Buddy Braai has a 4.5 centimetre side, which stops your food from rolling off the braai.

If you want perfect bacon off the braai or delicious sticky chicken wings and corn on the cob all with that amazing smokey flavor, the Braai Buddy is exactly what you need.

Because the Braai Buddy is made from cast aluminum, it creates an even distribution of heat when braaing. This means your food cooks more consistently and doesn't dry out like on a regular braai.

So now you can braai chicken wings, kebabs, bacon, corn on the cob, asparagus, baby marrow, aubergine, prawns, fish - even calamari.

[Testimonials]:

[Testimonial 5]: Forget the mess, forget the mission, the Braai Buddy make it so simple.

[Testimonial 8]: I love that the Braai Buddy is so easy to clean. It makes braaing a pleasure.

[Testimonial 6]: I honestly think everybody needs to give the Braai Buddy a try.

[Testimonial 7]: Food never sticks to the Braai Buddy and I love it.

In Studio:

[Male Presenter]: Now let's put the Braai Buddy to the test.

Today, we have two amateur cooks with us - and boy have we set them a challenge.

We have with us Contestant 1 and Contestant 2.

So contestant 1, you have used the Braai Buddy?

[Contestant 1]: Yes I've had it for about a month now.

[Male Presenter]: Contestant 2, you have not used the Braai Buddy?

[Contestant 2]: Nope I've been braaing the old fashioned way.

[Male Presenter]: OK, Contestant 1, you will be braaing with the Braai Buddy and Contestant 2 you will be braaing on a regular braai.

Now let's check out the massive challenge set ahead. (Pulls a cloth off a table revealing the most delicious looking braai Mille Feuille)

[Contestant 1]: Oh wow! That looks amazing.

[Contestant 2]: (Looking a bit overwhelmed). That was made on a braai?

[Male Presenter]: Contestants, what we have here is a Braai Mille Feuille.

The base layer is made from puff pastry and it's critical to get that pastry to come up and around like a bowl. This allows you to layer your ingredients without them spilling all over the place. The first layer of filling is Nutella. The second layer is the braaied banana. The third layer is the store-bought custard with a thin crisp layer of puff pastry on top.

All of these elements get repeated one more time and then topped off with some double thick whipped cream and braaied pineapple.

[Male Presenter]: Contestant 2, do you think you can manage the task ahead on a regular braai?

[Contestant 2]: I think it's going to be really tough. Especially the puff pastry bowl.

[Male Presenter]: Contestant 1, what challenges do you think you will face?

[Contestant 1]: I'm feeling very confident with this challenge. I know with the Braai Buddy all of this is achievable.

[Male Presenter]: All the ingredients and recipes are by your bench. You have 20 minutes and your time starts now.

(Contestants run to bench).

[Contestant 1]: I've read through the recipe and I'm starting with the braaied banana. Want to get all my elements ready, so when the puff pastry bowl comes out the Braai Buddy I can just start layering.

[Contestant 2]: I'm starting with the puff pastry bowl. After reading the recipe I feel for me this is going to be the hardest element to crack on a braai.

(Shots of contestants cooking different elements of the dish).

[Male Presenter]: Contestant 2, how are you coping?

[Contestant 2]: I'm very worried with my puff pastry bowl, as it is very flat. I'm not sure I can get it to work any better, so I have moved on to the grilling my banana, pineapple and thin crispy puff pastry layers.

[Male Presenter]: Good Luck.

(Shots of contestant 2 cooking different elements of the dish).

[Male Presenter]: Contestant 1, you seem to be on top of your game right now. You've got your smokey banana and grilled pineapple ready and you are making the thin crispy puff pastry layers now.

[Contestant 1]: Yeah I'm feeling really good about this challenge. I've cooked each element in the Braai Buddy and it has been really easy to clean before moving onto the next element. Saving all that time is really going to help me finish on time.

[Male Presenter]: Good Luck.

(Shots of contestant 1 cooking different elements of the dish).

[Male Presenter]: You have 2 minutes left, so you better start layering your Mille Feuille now.
(Shots of both contestants putting finishing touches on Mille Feuille).

[Male Presenter]: 5, 4, 3, 2, 1. Your time stops now.
(Shots of both contestants looking at completed dishes).

[Male Presenter]: First up, we are going to taste Contestant 2's Mille Feuille.
(Contestant 2 walks up to Presenter's table with Mille Feuille)

[Male Presenter]: (Cuts into Mille Feuille and takes a bite). There are some very nice flavor combinations happening there with the braaied banana and pineapple, but your puff pastry bowl has not kept any of the layers inside and all the puff pastry is very dry and overcooked.

[Male Presenter]: Next up Contestant 1
(Contestant 1 walks up to Presenter's table with Mille Feuille)

[Male Presenter]: (Cuts into Mille Feuille and takes a bite). OK, first off let's start off with presentation. It looks amazing.

Clearly, the Braai Buddy has enabled you to get the puff pastry bowl in the perfect shape. If we

talk about flavor, your Mille Feuille is bursting with it. Because the Braai Buddy is cast aluminum, it provides even heat distribution, allowing you to braai the puff pastry perfectly.

The braai'd Banana has that incredible smokey flavor and the pineapple has those beautiful chargrill markings. Well done, Contestant 1.

[Male Presenter]: From this braai-off it's clear to see that the Braai Buddy can cook anything your heart desires. From starters, mains to even desserts. Stop wasting time on that old fashioned braai that you can never keep clean.

With the Braai Buddy you can truly braai anything, anywhere.
